

## STREET DATE AGREEMENT

In our efforts to ensure that all retailers adhere to the official street date, we will actively monitor this situation during the days leading up to software releases.

I understand that by my signature below, I agree not to display for sale or rent any product that I receive prior to the manufacturers/publisher's nationally advertised street date.

Further, I understand that receipt of product early from Basco is a privilege which has been afforded in order that I may process all product in time for its self-readiness on street date. I also understand that release of any product prior to its advertised street date will constitute a street date violation and will subject my store/business to penalties from the manufacturer/publisher.

Any such violation may result in fines, late delivery of future product and/or complete termination of early delivery privileges.
